+ EMPLOYMENT

- 2013 - 2014 **HANDY NETWORKS, LLC.**
 - Support Team - Shift Leader**
 - Assisted customers with hosting plans in a data center environment. Primary responsibilities were to meet support ticket SLA goals, assist team members with issues as needed, and phone support with direct customers, and end-users.
 - Promoted to Shift Leader
 - Designed custom NOC dashboard

- **2012 - 2013**
REQUIRE(DEV), LLC.
Co-Founder, Sr. Developer
As a Co-Founder my hands were in several roles including, but not limited to web development, accounting, project management, contract drafting, and management of internal systems and infrastructure.

2011 - 2012

GODADDY.COM

Linux Systems Administrator

GoDaddy.com expressed interest in my mix of admin skills with programming knowledge. Primary responsibilities were to fix failed automation within the hosting environment, identification and resolution of widespread issues as quickly as possible.

2009 - 2011

LATISYS, LLC.

Systems Engineer

Hired as NOC Tech, promoted to Systems Engineer in response to individual interest in assisting with advanced tasks; including provisioning of new server orders, VMWare ESXi VM provisioning (clustering and failover), assisting with Cisco hardware rules and ASA/ACE firewall configuration in a data center.

- 2007 - 2009 **LAWGICAL, LLC.**
Web Developer
Assisted as part of a development team that builds online tools for use within the legal industry. Developed in Ruby on Rails, HAML/SASS, Compass, and more.
